<i>The Rather Ridiculous Ruses that Fuel Revolutionary Unrest</i>	Book Eleven of the Earth Manifesto
<i>See Clearly - Sanity During Insane Times</i>	Book Twelve of the Earth Manifesto

Note that the sources of all the essays in each of these books are contained online in links found on the Earth Manifesto Home Page. Here is a brief encapsulation of what you will find on the Home Page.

The wide-ranging writings in this manifesto are organized into Seven Parts, presented very roughly in the reverse order of their evolving genesis, with the most recent writings first. "LIFO, like!"

Before Part One are essays (including Book One and Book Twelve in their entirety) that I regard of paramount importance. They are followed by these Seven Parts:

**PART ONE.** Observations, Introspection, Illumination and Revelation. This section includes vitally important current and historical perspectives and Big Picture ideas.

**PART TWO.** On the Cusp of the Obama Era (Sept. '08 - Nov. '08). This section includes six essays about the tumultuous economic and social turmoil of the year 2008.

**PART THREE.** Soliloquistic Expressions - A Feast of Ideas. This section contains sixteen creative, entertaining and consequential essays, including one of my personal favorites, *Tall Tales, Provocative Parables, Luminous Clarity, and Evocative Truth: A Modern Log from the Sea of Cortez.*

PART FOUR. Overarching Considerations -- Transformational Ideas and Enlightened Proposals. This section includes a wide variety of smart, specific, visionary and practical ideas for helping us to achieve greater good goals.

PART FIVE. A Marvelous Miscellany. This section includes *Tiffany Twain Entertains: A Philosophic Cookbook*, and *Twelve Delicious Recipes for Good Health and Gourmet Appreciation*, both of which contain some outstanding recipes for healthy and tasty meals. It also contains a rough draft of an Earth Manifesto Film Script. Note that assistance is needed to make this into a vibrant, compelling and visually stunning film like the extraordinary documentary *Home* by Yann Arthus-Bertrand. Also in this section is a list of *Recommended Reading for a Broader Understanding and Appreciation of the World*.

PART SIX. Evolutionary Understandings: Blue Period (October 2004 - January 2006). This section contains 32 essays concerning a wide-ranging variety of topics.

PART SEVEN. The Original Earth Manifesto. This manuscript began more than 20 years ago as a passionate and philosophic outpouring of Big Ideas expressed in calligraphic form. This original Earth Manifesto consists of 121 Soliloquies, each one a single page that explores its own compilation of ideas. These Soliloquies offer fresh, cogent and far-sighted perspectives into today's dominant worldviews, and into the state of our society, economies and politics, and of our cultures, psyches and souls. These Soliloquies represent a comprehensive and enlightening synthesis of broadminded understandings, insightful ideas and ecological truths. All of them are interspersed with recommendations for achievable actions that could help make human societies fairer, healthier, and more propitious.

**DEDICATION:**

This *Common Sense Revival* is dedicated to:

- Thomas Paine, for his Revolutionary commitment to fair representation of the people.
- Alexander Von Humboldt, the eminently admirable ecological visionary and almost forgotten father of environmentalism who was an inspirational naturalist, world traveling adventurer and intrepid explorer, and the most famous scientist of his age (he lived from 1769 to 1859).
- Abraham Lincoln, for his bold recognition of the vital importance of good governance of the people, by the people, and for the people.

- Mark Twain, for his insightful humor, drawling lecture style, serious commitment to peace and social fairness during the Gilded Age, and his penchant for exposing misguided political and religious doctrines.

Mark Twain, for his insightful humor, drawling lecture style, serious commitment to peace and social fairness during the Gilded Age, and his penchant for exposing misguided political and religious doctrines.

- The Dalai Lama, for his simple wisdom and understanding that a unity of the heart and the head is vital for our individual and collective well-being.
- Barry Commoner, for his ecological visions and realizations about the Four Laws of Ecology and the Three E's of environmental concern.

## Comprehensive Global Perspective: An Illuminating Worldview

### Book Seven of the Earth Manifesto

A PREAMBLE IN WHICH THE AUTHOR OFFERS HER SERVICES AS AN INTERPRETER, COMPETENT ASSESSOR, GUIDE, VISIONARY AND FIGURATIVE SEDUCTRESS, AND SUMMARIZES THE BROAD TOPICS CONTAINED IN THIS EPISTLE: LIFE AND DEATH, HOPE AND LOVE, FAITH AND DOUBT, INDOMITABLE SPIRIT, LYRIC STORIES, PARABLES AND PROPHECIES, PREDICAMENTS, MYSTERIES, VAULTING TRIUMPH AND SHAME-FACED IGNOMINY, INTRIGUE, AMBITION, THE ADVENTURES AND MISADVENTURES OF POLITICIANS AND CAPTAINS OF INDUSTRY, VILLAINOUS TREACHERY, VAINGLORY, THIRST FOR POWER, THE FOLLIES OF PREEMPTIVE WAR, PERVERSIONS OF JUSTICE, FEAR OF GOD AND THE SNARES OF THE DEVIL, DENIERS OF EVOLUTION, CURIOSITIES AND CONUNDRUMS, SMOKE AND MIRRORS, SLINGS AND ARROWS, MUSINGS AND AMUSEMENT, ABSURDITY AND LAUGHTER, SESQUIPEDALIAN SPECULATIONS, INDULGENCE AND ABANDON. \*\*

#### **An Introductory Ode.**

Oh, Muses of divine Inspiration, your evocative powers are summonsed  
Nine daughters of all-powerful Zeus, the supreme ruler of the Greek heavens,  
And of fair and reasonable Mnemosyne, the graceful Titan goddess of Memory  
Please provide us with clear Insight, and all the best understandings we can deduce.

Let heart-felt and passionate ideas ring forth --- ones that address the basic question  
Of how our societies can balance today's needs with tomorrow's health and well-being  
For it is quite crucial that we accomplish this vitally important and salubrious goal  
So that we can achieve salvation, true security, clearer perspective and sane-seeing.

An integral new morality is needed to allow humanity to prosper and survive;  
A natural reverence for the health and vitality of individuals, communities and ecosystems  
And a cooperative respect for fair balance between competing interests, bound by a bold movement  
Towards democratic fairness, ecological sanity, international peace, and other essential wisdoms.

"I am the Poem of the Earth, said the voice of the rain,"  
Whispering wistfully to us of our connectedness to the elements,  
To the wild animals, to the birds singing, to ourselves, and to each other  
Bringing our attention to the wonders of life, and to our joys and laments.

At this current juncture in time, open-mindedness and receptive versatility are needed  
As ever-changing conditions favor nimbleness and adaptability, and far-sightedness  
And conservatives' support of the status quo proves to be inadequate to cope with rapid change  
Making it necessary that we explore and embrace new ideas with courage and boldness.

Truly,

Dr. Tiffany B. Twain

\*\* A big Thank You acknowledgment to Brazil's foremost novelist Jorge Amado for the idea of the stylistic introductory device in this Preamble.

Note that most of the content of this Book Seven of the Earth Manifesto was written before the year 2012. I long considered this *Comprehensive Global Perspective* to be the magnum opus of my writings, long before *Common Sense Revival* evolved and I began assembling the online Earth Manifesto into twelve books to be self-published through the on-demand publisher Lulu Press. The latest updates to this document bring current day politics into this document to an extent, but the most current political perspectives on things like the onslaught of political abuses of authority, the severe ramifications of having so many following the Authoritarian Playbook, and the sensational skullduggery involved in the Supreme Court Capture Scheme are contained in essays included in *Entertaining Illumination Unleashed: Book Two of the Earth Manifesto* -- and in *See Clearly: Sanity During Insane Times: Book Twelve of The Earth Manifesto*.
